How to Check Out E-books from the Library for Your E-reader or Mobile Device

Salem-South Lyon District Library has a growing collection of more than 10,000 e-books titles that you can check out for use on a variety of reading devices, such as the Kindle, Nook, and iPad. E-book borrowing requires a library card and [PIN](#) ^[2].

These instructions will focus on our downloadable e-books, which are provided to the Library through a service called OverDrive. The process for checking out e-books will be different depending on whether you are using a Kindle e-reader, a Nook or other supported e-reader, or a smart phone or tablet.

Skip to instructions on how to get e-books for:

- [Nook or Other Non-Amazon E-reader](#)
- [Mobile Device/Tablet](#)

Lending & Availability

E-books checked out from the Library are readable for 7 or 14 days (depending on what you select at check-out). You can check-out up to 10 e-books (or digital audio books) at a time. When an item expires, it will be automatically returned and will no longer be viewable on your computer or e-reader. (You may need to manually delete the e-book from your computer or device after it has expired.)

As is the case with physical books, libraries own a limited number of copies of any given e-book. If all copies of the e-book you're searching for have been checked out, the record will still display, and you can place a hold on it.

Where can I download e-books?

E-books can be downloaded using your home computer or portable, wi-fi-enabled device anywhere inside or outside the Library.
