

Policy 423: Sales related to Library Programs

Reviewed: 11/13/17

Revised: 11/13/17

Approved: 01/6/14

---

The Library frequently offers programs that are scheduled by the Library staff according to availability and local interest. Occasionally, a presenter will have a book, craft or some other material related to the program that they would like to make available to the program attendees to purchase.

Library employees are authorized to take vendor requests to the Library department heads or their designees for approval.
